**Cactus Craft**

**Supplies Provided:**
- Construction paper (green, brown, assorted)
- Tissue paper (pink)
- Glue dots

**Other Supplies Needed:**
- Scissors
- Pencil or pen
- Optional: crayons or markers

**Instructions:**

1. Draw your cactus on the green paper using a pencil or pen, then cut them out. Follow the outline with your scissors.
   **Tip:** draw several large ovals, then cut them out separately.

2. Cut out your pot from the brown paper.
   **Tip:** to draw a pot, draw a smiley mouth (curved line), then draw 2 straight lines extending up vertically from each ends of the smile. Add another smile to make the top of your pot.

3. Using the glue dots, arrange your green cactus and stick them to your third sheet of paper (for a background).

4. Layer your brown pot on top of the base of your cacti and glue using glue dots.

5. Tear or cut 6-10 small (or the size of your hand) pieces of tissue paper.

6. Crumple your tissue gently into small balls. These will be the flowers on your cactus.

7. Stick your tissue paper balls to your cactus using glue dots.

**Optional:** decorate the rest of your paper using crayons or markers

**Learning Outcomes:**
Child will practice fine motor skills and following step by step instructions.
