Slime Lab

It’s fun and easy to make slime from common household ingredients. Check out these recipes with four ingredients or less to make slime at home.

Two Ingredient Slime

Recipe ingredients:
- Baking soda, 1 cup
- Shampoo or dish soap, 1 tablespoon
- Optional: food coloring

Directions:
Pour 1 cup baking soda into a bowl. Add 1 tablespoon of dish soap or shampoo to the baking soda and a few drops of food coloring if desired. Stir ingredients until the mixture thickens. For thicker slime, add a little more baking soda at a time to change the texture.

Fluffy Slime

Recipe ingredients:
- White school glue, ½ cup or a 4 oz. bottle
- Baking soda, 1 teaspoon
- Saline contact solution, 1 tablespoon
- Shaving cream, 3 cups of foam
- Optional: food coloring

Directions:
Pour 1 cup baking soda into a bowl. Add 1 tablespoon of dish soap or shampoo to the baking soda and a few drops of food coloring if desired. Stir ingredients until the mixture thickens. For thicker slime, add a little more baking soda at a time to change the texture.

Milk Slime

Recipe ingredients:
- Skim milk, 7 tablespoons
- Vinegar, 1 tablespoon
- Baking soda, ¼ teaspoon
- A coffee filter
- Optional: food coloring

Directions:
Add 7 tablespoons of skim milk to a small bowl and add 1 tablespoon of vinegar to the milk. Stir the mixture until solids have formed. Add food coloring if desired. Let the solids sink to the bottom of the mixture and then drain off the liquid using a coffee filter. Let the solids drain for a few minutes into a bowl. Add ¼ teaspoon of baking soda to the solids and knead together for a few minutes to form a slimy mixture from milk. Add more baking soda for a thicker texture.

Glitter Sensory Slime

Recipe ingredients:
- Water, ½ cup
- Clear school glue, ½ cup
- Liquid laundry starch, ½ cup
- Glitter, 2 to 3 tablespoons
- Optional: food coloring

Directions:
Mix together 1/2 cup water and 1/2 cup clear school glue until completely combined. Add glitter and food coloring (optional) and stir until combined. Pour in 1/2 cup of liquid starch and stir for a few minutes until the slime begins to form. Knead the slime with your hands until all the liquid is absorbed. Tip: White glue can be substituted, but it will create pastel slime. Clear glue will create brightly colored slime.
